-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. In response to the amendments received March 11, 2004 and April 27, 2004:
 - a. The restriction of claims 1-11 is withdrawn in light of the amendment to claims 1-11 wherein these claims are now dependent upon claim 19 (previously considered on the merits);
 - b. The prior art rejections of record are withdrawn in light of the amendment.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-11 and 13-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not positively recite that the cooling of one component as recited in each claim further excludes cooling of the other components. The specification is silent as to the components which are not cooled relative to that which is cooled and therefore is not held to have sufficient written description to define these new limitations. As such the instant claims are held to raise new matter. Also, since this office action is final,

Art Unit: 1745

Applicant is advised that any amendments to the claim after final will require further consideration and the scope of the invention potentially subject to an additional search and therefore will not likely be entered.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. Claim 17 recites the limitation "the holder" in line 10. There is insufficient antecedent basis for this limitation in the claim;

b. The scope of claim 17 is unclear, and in particular at lines 5-7. Therein the claim initially recites "at least one target site" but subsequently recites plural "target sites" thereafter. Therefore the specific number of target sites or range of target sites is unclear as to whether it can be one target site when the claim later recites plural target sites. Clarity is requested.

Allowable Subject Matter

6. Due to the new matter issues, patentability cannot be ascertained at this point in prosecution. Since the scope of the claims appear to be beyond what the original written description encompasses, the Examiner cannot indicate allowable subject matter until the issues above are resolved.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
